

## ZM900 MANUAL FRAME STEP

### Step operation:

The ZM900 manual frame step is deployed by a damped gas spring which is activated by depressing the release foot pedal at the side of the tread. The step is simply stowed by pushing the tread fully in by foot. The manual steps are supplied fitted with a limit switch and a dash warning light.

### Dimensions:

Tread size deployed	300mm x 930mm
Tread deployment movement	248mm
Minimum projection of frame below sill height	54mm
Frame depth behind sill lip	335mm
Maximum tread projection out from sill lip	90mm
Overall width of frame and pedal	1016mm
